INTEGRATIVE ONCOLOGY
FROM RESEARCH TO PRACTICAL APPLICATIONS
SOCIETY FOR INTEGRATIVE ONCOLOGY
15TH INTERNATIONAL CONFERENCE

OCTOBER 26 - 28, 2018
The Scottsdale Resort at McCormick Ranch
Scottsdale, AZ, USA

An exceptional opportunity to learn about new findings from health care/scientific disciplines that have the potential to transform cancer care internationally – featuring keynote, plenary, abstract and workshop sessions highlighting the latest clinical, research and methodological issues in integrative oncology.

Who should attend? Physicians, nurses, researchers, nutritionists and other scientific health care disciplines, students and patient advocates interested in scientific advances and evidence-based complementary therapies for oncology care practice.

Watch for updates at INTEGRATIVEONC.ORG
JOIN YOUR INTEGRATIVE ONCOLOGY PEERS
CLINICIANS | RESEARCHERS | PATIENT ADVOCATES

JOIN THE LARGEST MULTI-DISCIPLINARY COMMUNITY
DEDICATED TO ADVANCING EVIDENCE-BASED,
COMPREHENSIVE INTEGRATIVE ONCOLOGY TO
IMPROVE THE LIVES OF PEOPLE AFFECTED BY CANCER.

Integrative oncology combines conventional oncology treatment with the evidence-informed use of complementary therapies.

AMONG SIO’S UNIQUE BENEFITS

1. Free access to SIO webinars on cutting edge clinical and research issues

2. Reduced registration fees for SIO’s annual international conference

3. Research, Clinical Practice, Communications and Patient Advocacy committee initiatives and Special Interest Groups - interact with colleagues to share and develop resources

4. Expanded access to conference videos, abstracts and SIO publications

5. Free access to Natural Medicines database and other evidence-based resources

6. Access to ONCOLOGY, SIO affiliated journal, and CancerNetwork.com
SIO ON THE WEB

INTEGRATIVE ONCOLOGY RESEARCH UPDATES

One of the main goals of SIO’s Research Committee is to disseminate updated research to our members. In 2015 we implemented a Research Update program on our website. Our Research Committee provides monthly updates of relevant literature by selecting a number of recent papers to be listed on the SIO website, based on search criteria that focus on original clinical research in human populations spanning a full range of complementary therapy modalities. For chosen papers we include the abstract and a link to the journal cite for downloads. Visit integrativeonc.org/recent-research-findings for more information and read the latest research in integrative oncology.

MEMBER-ONLY RESOURCES

SIO continually works toward developing and curating content that is only available to our members. The members-only portion of our website offers access to our videos and webinars library, which includes past conference keynote and plenary addresses, and our past webinars. Our webinars have covered a wide range of topics including acupuncture, acupressure, the impact of sugar on cancer, financial aspects of developing an integrative practice, physical activity and cancer survivorship, the use of integrative therapies as supportive care for breast cancer patients, dietary supplements, mushrooms, and much more.

Our members-only resources also include an Oriental Medicine Oncology Intake Checklist and an Integrative Intake Form, both developed by our Clinical Practice Committee for use by clinicians in their practices. The Clinical Practice Committee continues to develop useful resources available only to SIO members.

To access these videos, webinars, and resources login to your SIO account or join today!

CME INFORMATION

TARGET AUDIENCE
The 14th International Conference of the Society for Integrative Oncology has been designed to meet the educational needs of Physicians including those specializing in Oncology, Integrative Medicine, and Radiology, ND, PhD, RN, Oncology Nursing, PA, Acupuncturists, Nutritionists, Patient Advocates and other healthcare professionals in integrative oncology.

EDUCATIONAL PURPOSE/GOAL
The purpose of the 14th International Conference of the Society for Integrative Oncology is to encourage scientific and clinical collaboration to advance knowledge, therapies, and care delivery that will ultimately improve the quality of life and clinical outcomes for individuals and families living with cancer around the world.

LEARNING OBJECTIVES
• Discuss the current evidence to advancing the impact of integrative oncology research and practices
• Explain future global research and knowledge translation strategies in the field of integrative oncology
• Interpret evidence-based integrative oncology research

FEES
As outlined on the registration website: integrativeonc.org/register

PARTICIPATION REQUIREMENTS
1. Complete sign in sheet
2. Attend credit designated sessions
3. Log in to http://online-med-edu.com/SIO2017/ complete evaluation, credit request form, and download or print credit statement
