To advance evidence-based, comprehensive, integrative healthcare to improve the lives of people affected by cancer.
SIO’s Mission
To advance evidence-based, comprehensive integrative healthcare to improve the lives of people affected by cancer.

Values
Evidence-based; interdisciplinary; patient-centered; international outreach; health equity

Long-term goal
To make integrative oncology part of standard care
SIO’s Comprehensive Definition of Integrative Oncology

*Integrative Oncology* is a patient-centered, evidence-informed field of cancer care that utilizes mind and body practices, natural products, and/or lifestyle modifications from different traditions alongside conventional cancer treatments.

Integrative oncology aims to optimize health, quality of life, and clinical outcomes across the cancer care continuum and to empower people to prevent cancer and become active participants before, during, and beyond cancer treatment.

SIO HEALTH EQUITY MISSION STATEMENT

The Society for Integrative Oncology (SIO) affirms the dignity, equality, and equity of all people. We recognize that all are not treated with respect, and we commit ourselves to working for justice, equity, diversity, inclusion, and belonging among both internal and external stakeholders.
The SIO International Conference presents an exceptional opportunity to learn about new findings in integrative oncology from healthcare/scientific disciplines that have the potential to transform cancer care internationally.

The 20th SIO International Conference features keynote, plenary and concurrent sessions, as well as workshops highlighting the latest clinical, research and methodological issues, and offers opportunities to learn about integrative modalities. SIO members receive discounted registration rates! Visit www.sioconference.org for more information.
